HBS METLIFE STABLE VALUE FUND R2

Investment Category: Stable Value

All data as of March 31, 2017

About The Fund

The HBS MetLife Stable Value Fund is a collective investment fund (CIF) created by the HB&T Stable Value Collective Investment Trust and is sponsored and managed by Hand Benefits & Trust Company, a BPAS Company, for retirement plan clients of HANYS Benefit Services.

Investment Strategy

The objective of the Stable Value Fund is to preserve capital and provide stability of principal while earning current income that exceeds money market rates over the long term.

The fund will invest in a separate MetLife account comprised of fixed income securities such as US Governmental Agencies & Treasuries, mortgages, asset backed securities, corporate debt and cash equivalents. The fund seeks investment results that replicate the total performance, after fees and expenses, of the Barclays US Aggregate Intermediate Bond Index. The fund announces its contract rate in advance of each quarter and is calculated by taking the net yield of the MetLife Intermediate Aggregate Bond Index separate account less trustee, contract and amortized expenses.
